

Bahadır SAYGILI

Software Developer (Frontend)

PROFESSIONAL SUMMARY

I'm a Front-End Developer focused on building scalable, high-performance web applications that deliver real business value. I specialize in translating complex requirements into clean, maintainable solutions and take ownership of the full front-end lifecycle – from architecture and implementation to optimization and testing.

I have strong experience with JavaScript and modern React ecosystems, including state management, component architecture, and performance-driven UI development. I prioritize code quality, collaboration, and continuous improvement, and I'm comfortable working in fast-paced or ambiguous environments.

My background in Industrial Engineering and experience as an Air Traffic Controller shaped my problem-solving mindset, attention to detail, and ability to perform under pressure – qualities I bring directly into software engineering.

I enjoy working in Agile teams, mentoring collaboration, and contributing to scalable frontend architecture and best practices.

You can reach me at bhdrsaygili@gmail.com or explore my work at bahadirsaygili.com and GitHub: github.com/bsaygili.

EXPERIENCE

NİLTEK YAZILIM, On-site, Full-Time, Ankara, TURKIYE

Front-end Developer, August 2025 - Present

- Played an active role in developing front-end architecture and UI components for GURERP projects at Niltek Yazılım, delivering responsive and scalable user experiences.
- Designed and implemented reusable React components using MUI and Tailwind, improving UI consistency and development efficiency.
- Optimized state management and API communication through Redux Toolkit and RTK Query, enhancing performance and application stability.
- Company website: Niltek Yazılım

Telephone: (+90) 507 744 08 39

Mail: bhdrsaygili@gmail.com

Github: github.com/bsaygili

Portfolio: Bahadır Saygili

Medium: medium.com/@bhdrsaygili

SKILLS

Front-End: JavaScript, ReactJs, VueJs, Redux, HTML5, CSS3, TypeScript, TailwindCSS, bootstrap

Mobile: ReactNative

Tools & Methods: Git, GitHub, Mobile/Responsive Development, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork

EDUCATION

National Defence University Turkish Air Force Academy,

September 2010 – August 2014

Bachelor's Degree, Industrial Engineering

- Completed 3 computer-related courses including Visual Programming, Algorithms, and Data Structures, OOP.

FRUMATIC, Remote, Full-Time, *Monte Carlo, Monaco*

Front-end Developer, September 2022 - July 2025

- Contributed to the development of ERP and online vehicle sales platforms at FrumaticAuto, delivering responsive and scalable front-end solutions across multiple device types.
- Developed dynamic user interfaces using JavaScript, React (TypeScript), SCSS, and Bootstrap, focusing on maintainable component architecture and consistent user experience.
- Implemented Redux Toolkit and RTK Query to streamline state management and API communication, improving performance and application reliability.
- Worked within Agile workflows using Jira, supporting efficient sprint planning, delivery, and cross-team collaboration.
- Participated in code reviews and pair programming sessions to uphold code quality, share best practices, and strengthen team knowledge.
- Collaborated within a multinational development team, contributing to clear communication and aligned technical execution.
- Company website: frumatic.com
- Projects:
 - VTP-DMS: frumaticauto.com
 - VTP- Online Sales: store.frumaticauto.com

FANUS MEDIA, Remote, Freelance (Contractual), *Izmir, TURKIYE*

Front-end Developer, September 2021 - September 2022

- Developed custom web applications for local businesses, helping improve their digital presence and customer engagement strategies.
- Built interactive and visually consistent interfaces using JavaScript, HTML5, and CSS3, prioritizing usability and maintainable structure.
- Ensured mobile responsiveness and cross-browser compatibility through systematic testing and performance optimization.
- Collaborated directly with clients to gather requirements, translate business needs into technical solutions, and deliver tailored web experiences.

BALÇIK HEATING ELEMENTS Co., *On-Site, Ankara, TURKIYE*

Serial Manufacturing Planning Specialist, September 2018 - March 2022

- Coordinated daily/weekly production planning and optimized staff scheduling for efficient operations.
- Solved recurring production bottlenecks using data-driven analysis and reporting tools.
- Company website: [Balçık Tormec - Isı Elemanları - Isıtıcı Rezistans](https://www.balcik-tormec.com.tr)

TURKISH AIR FORCE, *On-Site, Istanbul, Izmir, Ankara, Konya,*
TURKIYE

Air Traffic Controller, August 2014 – August 2018 · 4 years

- Served 4 years as an Air Traffic Controller in several airfields around Turkey.
- Spent +2 years and 175+ flight hours at the Turkish AWACS squadron as a weapons controller and program officer.
- Arranged daily, weekly, monthly and annual flight plans of the AWACS squadron.
